N.B. LATHS, TILES, PAVING BRICKS, PLASTERERS' HAIR, ARTIFICIAL STONE, POTTERY WARE, &c. &c.

ROMAN and other CEMENTS.—Manufactured by J. M. BLASHFIELD, successor to the patentees, PARKER and WYATT, who, in 1796, first introduced PARKER'S ROMAN CEMENT, which has now for upwards of fifty years been extensively used in most of the public and private buildings and other works in this country and throughout the world. Among the more recent works in this country where it has been largely employed since the present proprietor became the manufacturer, may be named the Lyceum and St. James's Theatres, the Carlton, Reform, and Army and Navy Club Houses, the London Docks, the Thames Tunnel, the Winter Palace, St. Petersburgh, the British Museum, the York Minster, the Royal Exchange, the Eton College, and the New Houses of Parliament. When properly applied, it is the most perfect and economical [illegible] known; and, when used as a stucco, it will resist the action of heat and frost, and preserve walls from damp. As a mortar for brickwork, it surpasses any other material, and is NEARLY AS CHEAP FOR SUCH WORK AS MORTAR MADE OF ORDINARY LIME. Tyrone, or Hydraulic Lime, for setting masonry wherever [illegible] is important, &c. [illegible] A Cement of extraordinary [illegible] [illegible]

THE GREAT EXHIBITION OF INDUSTRY OF ALL NATIONS.

MARTIN'S PATENT FIREPROOF AND ORNAMENTAL CEMENT.

MESSRS. STEVENS and SON beg to call the attention of architects, builders, [illegible] specimens of MARTIN'S CEMENT [illegible] [illegible] cement may be obtained of Messrs. STEVENS and SON, at their plaster and cement works, 185, Drury-lane, or of their manufactory, Derwent Mill, Derby.—N.B. This Cement will receive PAINT OR PAPER IN A FEW HOURS AFTER THE COMPLETION OF THE WORK.

FRENCH PLASTER mixed with sand forms a hard stucco for internal walls, which dries rapidly, and may be used in place of lime and hair, at a trifling increase of cost. It is stronger for gauged work than English plaster, and is cheaper in its first cost.—Importers and Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster.

ATKINSON'S CEMENT, made in London from the stone supplied from the Mulgrave estate, is well known for its [illegible] setting properties and fine natural colour, which have distinguished it for many years as the best Cement for Casting and [illegible] purposes.—Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster.

KEENE'S and PARIAN CEMENTS, for internal stucco, are employed very advantageously in place of wood for skirtings, architraves, and panel mouldings, and for [illegible], instead of stone. The peculiar property of PARIAN [illegible] of its being painted or papered [illegible] within a few hours of its application, and these render it an important [illegible] cement [illegible] in those cases where expedition and [illegible] are essential.—J. B. WHITE and SONS, Millbank-street, Westminster, Patentees of KEENE'S Cement, [illegible] of PARIAN Cement.

J. B. WHITE and SONS advise purchasers of PORTLAND CEMENT to ascertain if an article now selling under that name at a reduced price is the real Portland Cement or a spurious imitation of it in the shape of a Lias Lime.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement, but has the advantage over that material of wholly [illegible] from [illegible]. When used as a stucco, it does not vegetate or turn green in damp situations, and requires no colouring. Employed as an hydraulic mortar for brickwork, it carries four to five measures of sand to one of cement, and is proved by trial to become harder and stronger in these proportions than Roman Cement with but one measure of sand. This superior connecting power, combined with its eminently hydraulic properties, points it out as the fittest material for building sea and embankment walls, the lining of reservoirs, cisterns, and baths, and for all those purposes where strength and a perfect resistance to water are required.

Manufacturers, J. B. WHITE and SONS, Millbank street, Westminster, and [illegible]-street, Liverpool.

PORTLAND CEMENT, in Casks of Four Imperial Bushels. QUANTITY, NOT WEIGHT, BEING THE STANDARD.—CHAS. FRANCIS and SONS, Cement Works, Nine Elms, London.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee. [illegible] ROBINS, ASPDIN, and Co. request reference to [illegible] page [illegible]; and also Nos. [illegible] and [illegible], pages [illegible] and [illegible], of "The Builder," for accounts of EXPERIMENTS on the [illegible] of Portland Cements, whereby the great superiority of their Cement is manifest. This Cement has been proved for [illegible] of twenty years in the Thames Tunnel to resist the [illegible] of water; it is stronger in the [illegible] qualities, harder, and more durable than any other description of Cement; it does not vegetate, oxydise, or turn green; nor is it affected by atmospheric influence whatever the climate, resisting alike the action of frost and heat. It is manufactured to set in from five to [illegible] minutes. For all purposes that Cement is applicable the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall; also at their Depot, [illegible], Hanover-street, Liverpool.

[illegible], South Wharf, Paddington.

PORTLAND CEMENT.—FREEMAN and RICHARDSON have much pleasure in introducing to the trade the above superior CEMENT, being of uniform colour and quality, a desideratum never before attained in Portland Cements. It possesses extraordinary [illegible] qualities, resists the action of frost and heat, and is more durable than any other Cement; does not vegetate, turn green, or crack, combined with which its powerful hydraulic properties stamp it at once as the first Cement of the day for work where all the above qualities are requisite. It is manufactured on the only principle Portland Cement can be made, and contrary to the statements put forth by those who have [illegible] the monopoly. Manufactured by E. GREAVES, [illegible], at his Works, near the River Avon, and sent to all parts of the kingdom per boat or rail, at a reduced price to the trade.

JOHNS and CO.'S

PATENT PERMANENT STUCCO WASH, WITHOUT SIZE OR OTHER CORRUPTIBLE INGREDIENT.

JOHNS and CO. having effected some important improvements in the manufacture of this very useful material, confidently offer it to the [illegible] the Trade and the Public generally, as [illegible] every advantage over the common Lime Wash or Water Colour for STUCCO and BRICK WORK. It is a Stone Colour, but may be tinted to any other.—DOES NOT WASH OFF—is perfectly dry in twenty-four hours, and, being a non-absorbent, is admirably adapted for Railway Stations, Union Workhouses, [illegible], Schools, [illegible], &c. One cwt. will cover 500 square yards. It will keep good for years, and MAY BE EXPORTED WITH PERFECT SAFETY.

JOHNS and CO.'S STUCCO CEMENT.—This cement, from the great [illegible] in price, and its suitableness for internal as well as external [illegible], places it above all other [illegible] [illegible]; it [illegible] may be painted or papered in a few [illegible]; never blisters, cracks, or vegetates; soon becomes as hard as stone, and may be cleaned with a brush and water.

The merits of the PAINT are well known for its application to stucco work of all kinds and external work generally. [illegible] application to the Sole Agent, PHILIP HARE, at the [illegible], [illegible], Upper Thames-street. A liberal allowance to [illegible] dealers.

WEBSTER, at the Wharf.

RANSOME and PARSONS beg to draw the attention of Architects, Builders, and others, to their PATENT STONE, which in its composition, differs essentially from all other artificial productions for a similar purpose—flint forming the base. In character, texture, and appearance it is made to resemble every kind of natural stone, at pleasure, from the finest marble to the coarsest sandstone, and to possess all their valuable and enduring properties, without being liable to any of their defects. It is especially applicable to all kinds of architectural decorations and mouldings, fountains, balustrades for terrace walks, vases and [illegible], &c., &c.; also, for all varieties of plain and ornamental [illegible]. In price it is far below the cost of any natural production, and, in many cases, can be furnished as low as ordinary cement. Copies of Busts, Statuary, or other Works of Art, can be produced in the Patent Stone as faithfully as in Plaster of Paris.

IMPORTANT to WATER COMPANIES, MANUFACTURERS, and the PUBLIC.—RANSOME and PARSONS beg to call the attention of Water Companies, Manufacturers, and others to their PATENT STONE FILTERING SLABS, which are capable of filtering from 100 to 200 gallons of water per superficial foot per day, with a head of water varying from 2 to 4 feet. These slabs can be produced to any required dimensions, and, consequently, can be adapted to any cistern, tank, or reservoir. By a simple preliminary arrangement, they are prevented from being in any way choked or impeded in their action. Prices [illegible] per superficial foot.—Full [illegible] and prices of their other [illegible] [illegible] application.

IMPORTANT to BRICKMAKERS and CONTRACTORS.—RANSOME and PARSONS are also the proprietors of HALL'S PATENT BRICK-MAKING MACHINE, capable of moulding [illegible] per day and upwards, which are superior to those [illegible] by hand, and are produced at considerably less cost. Communications to be addressed to the Patentees.—RANSOME and PARSONS, Flint Wharf, Ipswich; or to [illegible], [illegible]-street, London.
